

Meeting Summary
Antelope Valley Illegal Dumping Task Force (AVIDTF) Meeting
November 13, 2013

AVIDTF Meeting

- Meeting attendees introduced themselves.
- Karyl Newman and Larissa Nickel of "Hinterculture" provided a PowerPoint Presentation regarding the unprecedented success of the DEHSART Project (Desert Engagement: Hinder Swill Achieving Recycled Trash).
- Coby Skye of DPW provided a summary of year to date illegal dumping reports.
- A quick summary was provided regarding the Funding Subcommittee discussions (see above).
- It was noted that later that evening, a special screening of the *Curiosity Quest Goes Green* episode featuring the AVIDTF would be showing at the Palmdale Playhouse. Tickets are required for entrance. (*Editor's Note: The screening was a great success, with a strong turnout from elected officials, members of the AVIDTF and others; Joel Green stayed after the screening to answer questions from the audience*).
- Lake LA Resident Brian Brown shared photos and information regarding illegal dumping taking place in his community, and asked for suggestions regarding how the sites might be cleaned up. It was recommended by members of the AVIDTF that Brian work through the Lake LA Town Council to help with organized cleanups, and to continue to report incidences of illegal dumping and encourage his neighbors to do the same.
